We all understand exactly how the lact is.

The Yaneey leaders in the South broke up the Democratic party of the country, and now, backed by the Buchann administration with all its patronage, they are running Breckingelies electoral tickets in the whole of the nonslave holding States, desiring that the effect shall be, and knowing that the tendency must and will be, to divide the opposition in those States and give the electoral votes to Lincolu. But for that disruption of the Opposition which they are widening by every means in their power, several Northern States, that now seem likely to east their electoral vote for Lincoln, would most certainly cast them against him. Then shall these Southern traitors, who are laboring with all their might and lahoring effectively to give Lincoln an electoral vote in their impudent and mischievous assumption in those States, be tolerated in their impudent and mischievous assumption in their impudent and mischievous assumption in their power, sowers and mischievous assumption in those States, be tolerated in their impudent and mischievous assumption and control of the proposition of the land of the proposition will be assumption of the Opposition which they are widening hy every means in their power, several Northern States, that now seem likely to east their electoral vote for Lincoln, would most certainly cast them against him. SAD AND AFFECTING INCIDENT. —A little boy and the lapsburgs, end now monacing the whole live of their dominions, are the results of Austria. But all that Austria has paid in the shame of the fixed and bloed of its subjects has not exhausted the tribute exacted by the stern divinlly whomes the has chosen as her idoff. At the present moment the public debt of Austria amounts to \$\\ \elline{e}{e}{1},800,000,000,000, a sum so vast that it affects one like the astronoulcal distances, which are indeed as likely to be traversed by Prof. Wise in his balloon as is this cepital to be acquitted by the ministers of Francts Joseph. Upon this capital, however, an interest of five por cent. accrues, which must be pald if the Government is to hepe for 11 means to meet entry new and sudden demand upon the Trassury. This interest aloue absorbs nearly cae-half the outer actual revenue of the Empire, a revocuse which ull the efforts of Beron Bruck utterly falled to increase, the power of laxation having completely exhausted itself in Austria.

Test sait this public debt or increase, the power of laxation having completely exhausted itself in Austria.

Test sait this public debt or accounted to the vice and the voice cased to call its earlief part of the like wandeer to look its dilitation to the eternal Father, and rejoiced to he in him again.

Vast as is this public debt, ene-half of the whole sum has been incurred during; the last ten years, from 1850 to 1860, and represents, therefore, the extroute capacity of Austria 10 raise the means for maintaining her military authority in her own provinces, and for conducting a great foreign wart the administration of llungary and Italy, during the excitement of the Crimean conflict, and the Lombard war of 1859, having imposed this huge burden upon the Empire. The simple eccession of militery force made necessary by the movement of Gerbaldi, since the Spring of 1860, has swelled the deficit of the national budget for the current year from 87,000,000 to 96,000,000 of forlas. In other words, while it costs Austria more than half a billion of dollars to bring herself up to the point at which three great lattles drove her frout Lombardy forever, and ruined her isolitary prestige in Europe, it has cost bor tive millions of dollars shiply to mount guard over Venetia, at the sound of Garibaldi's bugles in Skily.

How, then, are we to comprehend the possibility of a further offert on the part of this Government of carry ont a policy so pelpably disastrons even to the objects for which it has been made on a ruled of the objects for which it has been made on a ruled of the objects for which it has been made on a ruled of the objects for which it has been made on a ruled of the objects for which it has been made on a ruled of the objects for which it has been made on a ruled of the objects for which it has been made on a ruled of the objects for which it has been made on a ruled of the objects for which it has been made on a ruled of the objects for which it has been made on a ruled of the objects for which it has been made on a ruled of the objects for which it has been made on a ruled of the objects for which it has been made on a ruled of the objects for which it has been m
